

$$\eta=1$$

A horizontal bar is shown, divided into two segments. The left segment is blue and the right segment is red. The blue segment is approximately one-third of the total length, and the red segment is approximately two-thirds.

$$\eta=0$$

A horizontal bar is shown, divided into two segments. The left segment is blue and the right segment is red. The blue segment is approximately four-fifths of the total length, and the red segment is approximately one-fifth.
